

OPERA SHARP

Evolution

INTEGRATED INTERFACE: generator control, table positioning and image processing in a single monitor

Innovative design of remote-controlled system

- ✓ **INNOVATIVE:** exclusive structural architecture with a single system of traslation of the entire examination table-top support group for complete accessibility to the patient
- ✓ **FAST:** unlimited auto-positioning of table managed by anatomical programs
- ✓ **ERGONOMIC:** Table-top reaches a distance of only 50 cm from the floor, ensuring easy and safe access even to patients with reduced mobility
- ✓ **RELIABLE:** image high quality with dose reduction
- ✓ It can be integrated with overhead tube suspension, X-ray and additional Wi-Fi detectors
